

The Second Horse of the Apocalypse - Famine

PART X

Drought

The Battle to Starve America

The Summer of Drought

- And when he had opened the fourth seal, I heard the voice of the fourth beast say, Come and see.
- And I looked, and behold a pale horse: and his name that sat on him was Death, and Hell followed with him. And power was given unto them over the fourth part of the earth, to kill with sword, and with hunger, and with death, and with the beasts of the earth. (Revelation 6:7-8 AV, Cambridge Edition 1769)

The Summer of Drought

- Pale – χλωρός - *chlōros* – [Strong's #G5515]
 - (Strong's) greenish, that is, verdant, dun-colored: - green, pale.
 - (Thayer) green, yellowish pale
 - (Mounce) pale green, green, verdant (green), Mark 6:39, Revelation 8:7, 9:4, pale, sallow (of a sickly, yellowish or lightish brown color), Revelation 6:8.
 - We get our words Chlorophyl, Chloroform, etc. from this word.
 - Total KJV Occurrences: 4
 - Green – 3 (Mark 6:39, Revelation 8:7, 9:4)
 - Pale – 1 (Revelation 6:8)

The Summer of Drought

- Death – θάνατος – *thanatos* – [Strong's #G2288]
 - (*Strong's*) *death* (literally or figuratively): - X deadly, (be...) death.
- Total KJV Occurrences: 118
 - Death – 115
 - Deadly – 2
 - Deaths - 1

The Summer of Drought

- Death – θάνατος – *thanatos* – [Strong's #G2288]
 - *(Thayer) the death of the body*
 - *1a) that separation (whether natural or violent) of the soul and the body by which the life on earth is ended*
 - *1b) with the implied idea of future misery in hell*
 - *1b1) the power of death*
 - *1c) since the nether world, the abode of the dead, was conceived as being very dark, it is equivalent to the region of thickest darkness, i.e. figuratively, a region enveloped in the darkness of ignorance and sin*

The Summer of Drought

- Death – θάνατος – *thanatos* – [Strong's #G2288]
 - *(Thayer) the death of the body:*
 - 2) *metaphorically, the loss of that life which alone is worthy of the name*
 - 2a) *the misery of the soul arising from sin, which begins on earth but lasts and increases after the death of the body in hell*
 - 3) *the miserable state of the wicked dead in hell*
 - 4) *in the widest sense, death comprising all the miseries arising from sin, as well physical death as the loss of a life consecrated to God and blessed in him on earth, to be followed by wretchedness in hell*

The Summer of Drought

- Death – θάνατος – *thanatos* – [*Strong's* #G2288]
 - (*Mounce*) 120x: death,
 - the extinction of life, whether naturally, (Luke 2:26, Mark 9:1) or violently, (Matthew 10:21, Matthew 15:4)
 - imminent danger of death, (II Corinthians 4:11-12, 23)
 - in NT spiritual death, as opposed to ζωή in its spiritual sense,
 - in respect of a forfeiture of salvation, (John 8:51, Romans 6:16)

The Summer of Drought

- Hell - ᾍδης - *hadēs* – [*Strong's* #G86]
 - (*Strong's*) properly unseen, that is, “Hades” or the place (state) of departed souls: - grave, hell.
- *Thayer*
 - 1) name Hades or Pluto, the god of the lower regions
 - 2) Orcus, the nether world, the realm of the dead
 - 3) later use of this word: the grave, death, hell

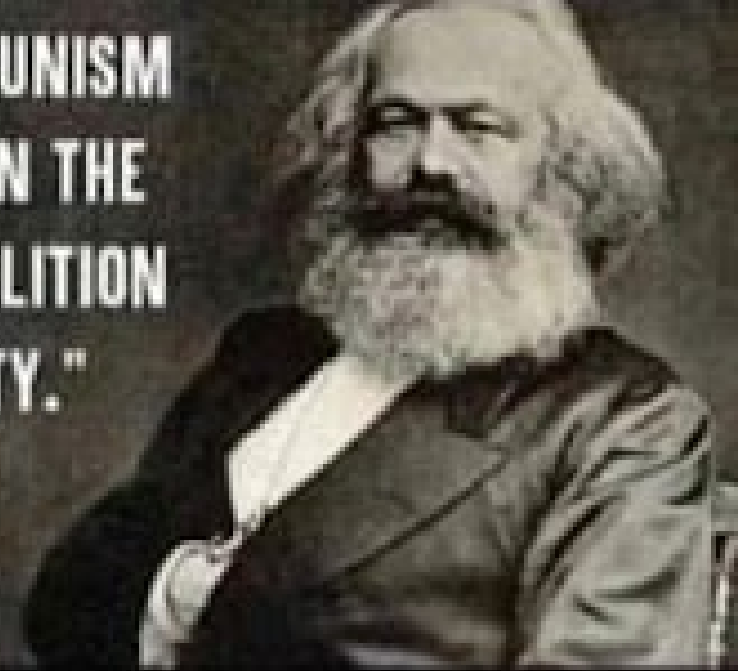

The Summer of Drought

- Hell - ᾗδης - *hadēs* – [*Strong's* #G86]
 - (Mounce) the invisible abode or mansion of the dead;
 - the place of punishment,
 - hell;
 - the lowest place or condition. (Matthew 11:23, Luke 10:15)

The Summer of Drought

- The World Economic Forum's Directive for Decades has been to Reduce the World's Population to "Sustainable Levels."
- The World Economic Forum accomplished this by Inciting a War between Russia and Ukraine. Here is how they did it:
 - They used the Obama Administration to incite a revolution in Ukraine to bring in a government favorable to the West and especially the World Economic Forum.
 - Once they established power, they weaponized Ukraine with Western Military Goods and installed "military advisors" to help the Ukrainians build up their military.

The Summer of Drought

- The World Economic Forum's Directive for Decades has been to Reduce the World's Population to "Sustainable Levels."
- The World Economic Forum accomplished this by Inciting a War between Russia and Ukraine. Here is how they did it:
 - They also bribed Ukrainian leaders to allow them to Place Bio-Labs in the Country.
 - Russia vehemently protested these moves into Ukraine through diplomatic channels. Eventually, the Minsk Agreements were signed, first in September of 2014 and again on February 12, 2015. The Ukraine government disdained the agreement even though they signed it.

The Summer of Drought

- The World Economic Forum's Directive for Decades has been to Reduce the World's Population to "Sustainable Levels."
- The World Economic Forum accomplished this by Inciting a War between Russia and Ukraine. Here is how they did it:
 - The Russians worked through diplomatic channels to get the parties to the treaty to follow it. The Trump Administration even cut off most aid to Ukraine at the request of Putin and the Russian Government because of the Treaty Violations.
 - The Russians were convinced by the Trump Administration to stand down their military and continue to use diplomatic means to solve the disputes.

The Summer of Drought

- The World Economic Forum's Directive for Decades has been to Reduce the World's Population to "Sustainable Levels."
- The World Economic Forum accomplished this by Inciting a War between Russia and Ukraine. Here is how they did it:
 - Changes came when Joe Biden was "elected" president and inaugurated in January of 2021. They immediately restarted all aid to Ukraine and began to send even more military equipment. When the Ukraine government started a program to exterminate ethnic Russian in the Donbas Region.
 - When Russia moved to protect their interests, the EU "sanctioned" Russia. Now, the world lacks the fertilizer needed to grow their crops. Even worse, the EU now lacks the energy resources once supplied by Russia to maintain their industry.

The Summer of Drought

- The World Economic Forum's Directive for Decades has been to Reduce the World's Population to "Sustainable Levels."
- The World Economic Forum accomplished this by Inciting a War between Russia and Ukraine. Here is how they did it:
 - Couple this with droughts caused by HAARP and other technologies, we are headed for trouble.

The Summer of Drought

- The Federal Bureau of Investigation (FBI) is informing Food and Agriculture (FA) sector “partners” that ransomware actors may be more likely to attack agricultural cooperatives during critical planting and harvest seasons, disrupting operations, causing financial loss, and negatively impacting the food supply chain.
- Although ransomware attacks against the entire farm-to-table spectrum of the FA sector occur on a regular basis, the number of cyber attacks against agricultural cooperatives during key seasons is notable.

The Summer of Drought

- Since 2021, multiple agricultural cooperatives have been impacted by a variety of ransomware variants. Initial intrusion vectors included known but unpatched common vulnerabilities and exploits, as well as secondary infections from the exploitation of shared network resources or compromise of managed services.
- A significant disruption of grain production could impact the entire food chain, since grain is not only consumed by humans but also used for animal feed. In addition, a significant disruption of grain and corn production could impact commodities trading and stocks.

The Summer of Drought

- In July 2021, a business management software company found malicious activity on its network, which was later identified as HelloKitty/Five Hands ransomware. The threat actor demanded \$30 million USD ransom. The ransomware attack on the company led to secondary ransomware infections on a number of its clients, which included several agricultural cooperatives.
- Between 15 September and 6 October 2021, six grain cooperatives experienced ransomware attacks. A variety of ransomware variants were used, including Conti, BlackMatter, Suncrypt, Sodinokibi, and BlackByte. Some targeted entities had to completely halt production while others lost administrative functions.

Food processing plants don't just "accidentally" burn down at this rate and they certainly don't "coincidentally" become landing pads for plane crashes at the rate they are.

Our food supply is under attack in America. The question is—by who?

The Summer of Drought

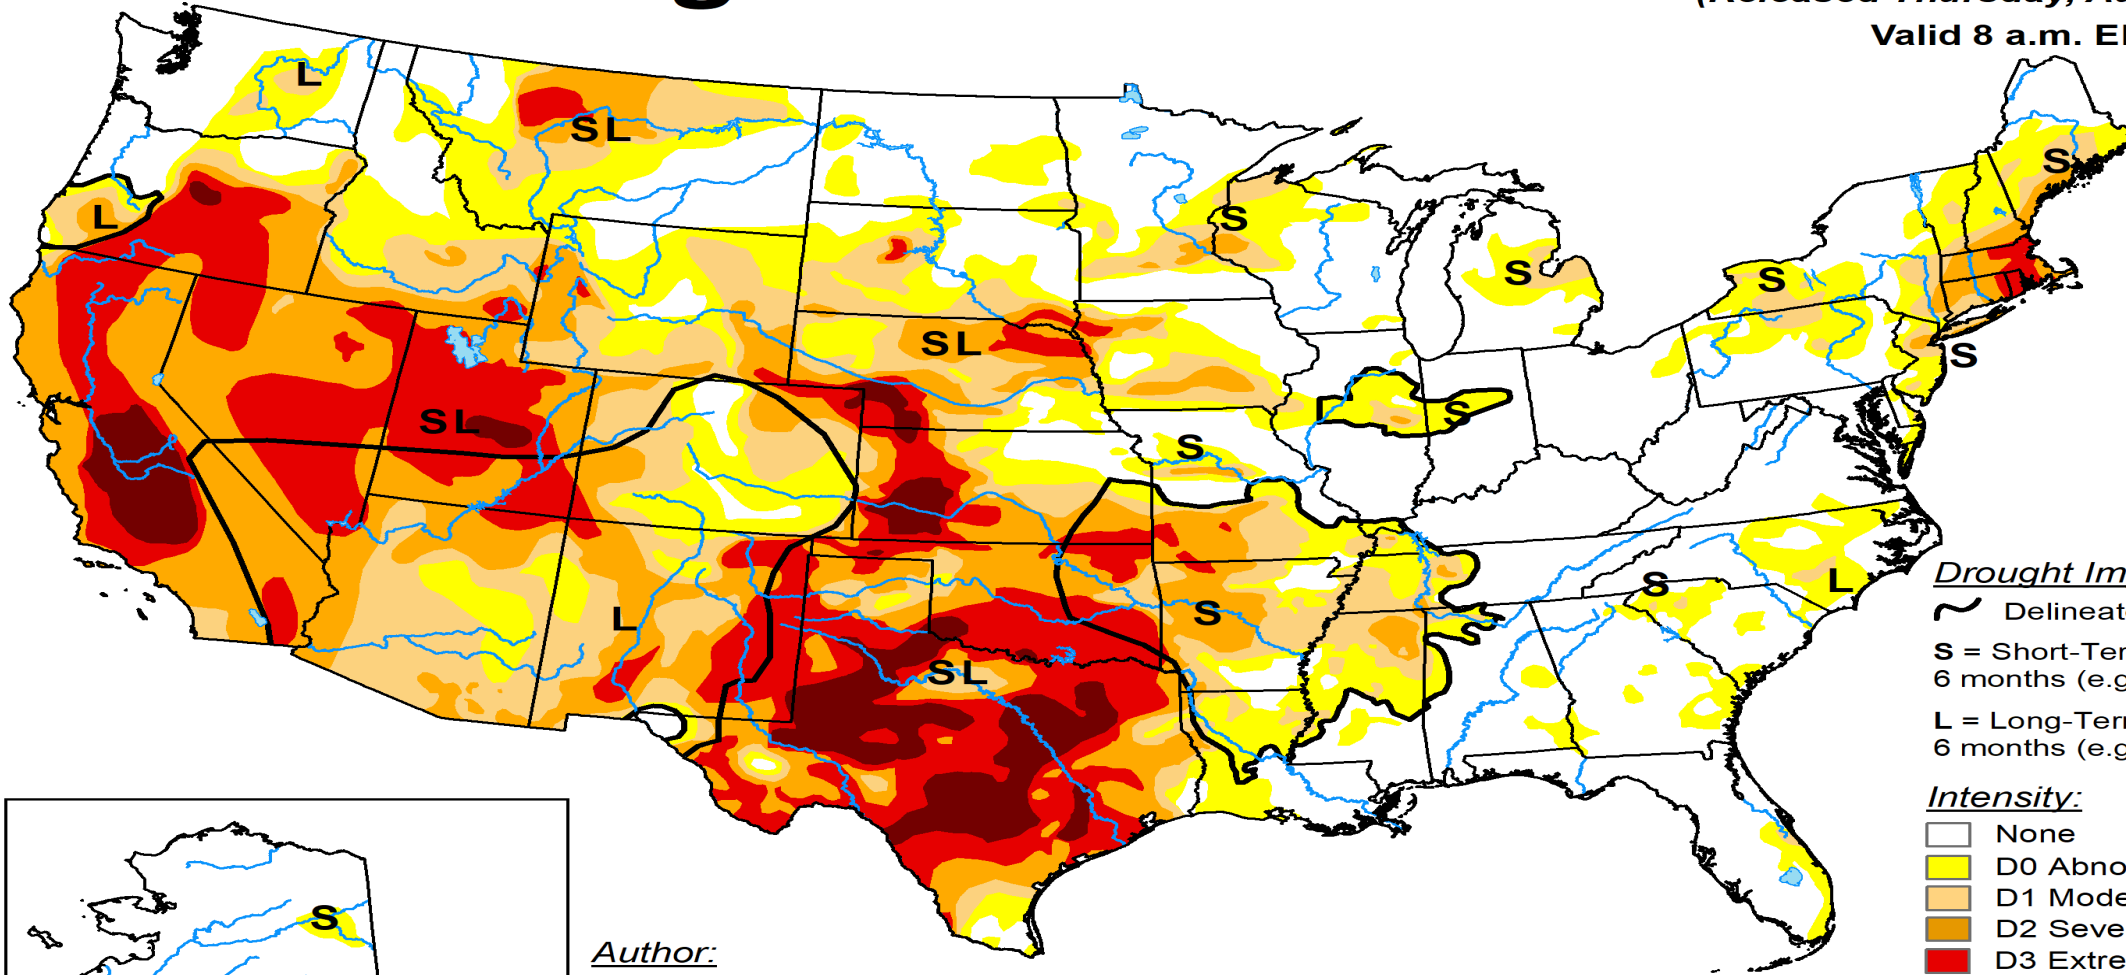

- However, it is important to understand how bad this drought has become in the United States. The University of Nebraska has continued to research this situation and releases drought maps on the Internet to keep everyone apprised of the situation.

U.S. Drought Monitor

August 16, 2022
(Released Thursday, Aug. 18, 2022)
Valid 8 a.m. EDT

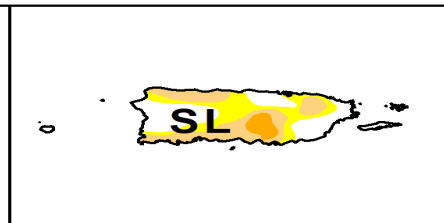

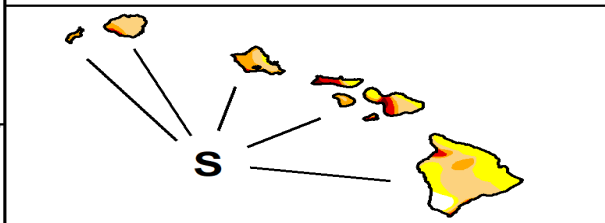

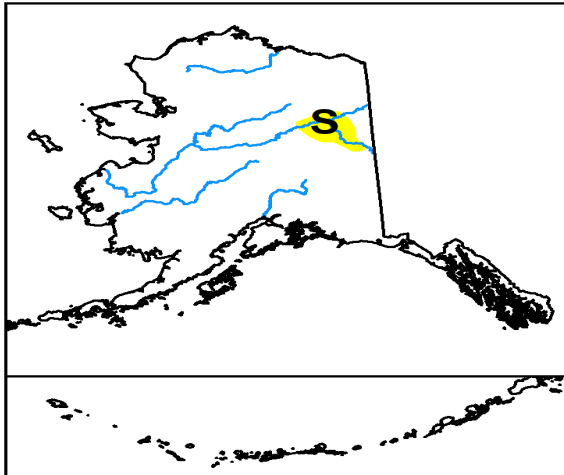

Drought Impact Types:

- ~ Delineates dominant impacts
S = Short-Term, typically less than 6 months (e.g. agriculture, grasslands)
L = Long-Term, typically greater than 6 months (e.g. hydrology, ecology)

Intensity:

- None
D0 Abnormally Dry
D1 Moderate Drought
D2 Severe Drought
D3 Extreme Drought
D4 Exceptional Drought

Bible Music Research

- In anticipation of a trip to Heavener, Oklahoma later this summer, we did some more experimentation with our Bible Music Project.
 - Much of the research we previously did is on our website: <http://biblemusic.live>.
 - Much of that work from 2006-2012 centered around weather research and culminated with making it rain every day in June of 2012 in Trinidad, Colorado. Professor Mack was assisted by the late scientist: Olaf H. Hage III and Sound Engineer Chris Blodgett, both in the construction of the music and in the scientific elements.
 - On July 4, 2022, we embarked on a new project. In our first phase, we made music from Isaiah 9:8 to 13:33 in all 12 key signatures. We played the music out into the atmosphere for the first time that evening. Areas of drought suddenly got rain, but CERN did not operate as planned and there was a problem with the Georgia Guidestones.

Bible Music Research

- In anticipation of a trip to Heavener, Oklahoma later this summer, we did some more experimentation with our Bible Music Project.
 - On July 22, 2022, I went to Colorado Springs, Colorado on personal business. While waiting in a waiting room at Memorial Hospital, I learned on local television that the city had experienced greater than average temperatures on 18 of 21 days on the month. They only had rain on three of those days.
 - Since I had “Rain Machine” on my phone, I started playing it in the waiting room of the Hospital. Within two hours of playing it, the clouds came off the mountain and it started raining heavily.

Bible Music Research

- In anticipation of a trip to Heavener, Oklahoma later this summer, we did some more experimentation with our Bible Music Project.
 - In a follow-up to the Colorado Springs events, we noticed that the rain system missed Trinidad, Colorado. It is something that we have seen before. Even the late Stephen Hamer, M.S. (Meteorology) could not account for or explain the number of times that storm systems bypassed Trinidad, Colorado.
 - This time, we played Zechariah, chapters 13-14 into the air. Within two hours, thunderstorms came over the mountains and continued for much of the night.
 - Continuous thunderstorms are rare in Trinidad, Colorado, as the city is on the Northeast corner of the Great Southwestern Desert of the United States.
